ALCONOMIC CONTRACTOR OF THE PARTY OF THE PAR

1925-1926

ANNUAL REPORT

OF THE

POLICE DEPARTMENT

CITY OF LOS ANGELES
CALIFORNIA

FOR THE FISCAL YEAR

1 9 2 5 — 1 9 2 6

HON. GEO. E. CRYER

- - MAYOR

BOARD OF POLICE COMMISSIONERS

I. W. Birnbaum, President

Thomas Foss

Rodney Webster

Harry E. Insley

Willard G. Thorpe

Geo. T. Jeffers, Secretary

JAMES E. DAVIS

- - CHIEF OF POLICE

In Line of Auty

Mylie E. Smith

Policeman

Appointed October 1, 1924 Died August 23, 1925

Shot by one of four bandits who were fleeing from the scene of a bank robbery. Awarded Police Commission Medal posthumously.

Gerhert Klade

Policeman

Appointed May 17, 1922 Died February 8, 1926

Shot by maniac whom he was attempting to arrest without harming. After he was stabbed, ammunition failure left him at the mercy of his assailant, who shot him to death. Awarded Police Commission Medal posthumously.

James M. Miller

Policeman

Appointed October 1, 1924 Died March 14, 1926

Shot through closed door of house he and two brother policemen were about to raid for suspected liquor violation.

Arthur C. Davenport

Policeman

Appointed June 1, 1923 Died May 16, 1926

Killed when police car was overturned by deliberate act of pursued reckless driver.

POLICE COMMISSION AWARD FOR VALOR

Established June, 1925

WYLEY E. SMITH (Deceased)

Policeman

(Medal presented to the mother of Policeman Smith)

OSCAR BAYER

Motorcycle Policeman

For valor displayed in the pursuit of, and gun battle with four bandits who had just successfully completed the robbery of a bank.

HERBERT KLADE (Deceased)

(Medal presented to the widow of Policeman Klade)

For valor and gallantry in warning an unarmed citizen not to attempt attack upon the maniac who had wounded him and within a few minutes killed him.

Los Angeles Police Pepartment Office of The Chief

TO THE HONORABLE BOARD OF POLICE COMMISSIONERS, CITY OF LOS ANGELES.

Sirs:-

In compliance with Article 4, Section 58, of the Charter of the City of Los Angeles, effective July 1st, 1925 I am respectfully submitting herewith the annual report of the Police Department for the fiscal year ending June 30th, 1926.

Prior to the fiscal year ending June 30th, 1925, it had been customary to submit a report that took the form of a catalogue or year book, but my predecessor, Chief of Police R. Lee Heath, established an excellent precedent in abandoning the old method of procedure and offering for your consideration a precise statement of the functions, activities and distribution of the personnel of the Los Angeles Police Department, with comparative charts giving the area of the various police divisions, the percentage of men allotted to such divisions and the actual results obtained in our efforts to enforce the law. The charts accompanying this report afford a graphic portrayal of conditions as they exist and a better basis for comparison with the work of other departments than could be given in a bulky book of printed explanations.

This year we have practically the same police problems as have confronted us in the past but the reorganization of our Department has markedly increased the efficiency of every individual, bureau and division. In addition to this we have executive officers of long experience and great ability in carrying out the orders transmitted to them, and the subordinate officers have been able to imbue individuals under their command with a greater zeal for the service and a generally

improved morale.

When the report for the fiscal year ending June 30th, 1925 was submitted to your honorable body Los Angeles had an area of 415 square miles. At the present time it has an area of 423.68 square miles, and within a month, when the Sunland and Bell districts have been officially admitted to our municipality, it will have an area of 433.68 square miles. It can readily be seen that the increase in our area and population adds to the problems of the Police Department, for we have received no appreciable increase in the number of our employees while at the same time guaranteeing adequate police protection to the communities that have been annexed. Statistics given in various police publications and almanacs indicate that Los Angeles has fewer policement on duty per square mile than any of the nine largest cities in the United States and even if we consider only the more densely populated areas, has not to exceed 11.6 men for service in each square mile of territory. It is interesting to note that New York and Boston maintain their lead with 43.4 and 42.9 men per square mile, respectively.

Our permanent population on a basis of census reports undoubtedly is slightly in excess of 1,057,000, but it is quite apparent to all who study this situation closely that with our tourist population we have at least 1,202,000 to whom we owe protection. With such an enormous increase in population we have to remember the fact that a police department is not only engaged in protecting the public against the actictivities or depredations of criminals, but that also it is necessary to assign an increasing number of men to traffic duty so that both our permanent residents and our visitors may traverse the streets in comparative safety. The automatic signals at congested crossings have improved traffic conditions markedly, but the growth of the city is so rapid that we find an ever increasing demand for officers on duty at crossings

which hitherto have not seemed congested.

Undoubtedly the most important factor in developing the efficiency of our Department as a crime prevention body has been the establishment of indoor target ranges in nearly all of the division stations, and with auxiliary outdoor ranges near at hand. The Department Range at Elysian Park continues to draw large numbers of our officers, and the general shooting ability of the men is attracting nation-wide attention. At the present time we have eight experts, 143 sharpshooters and 200 marksmen in our service who have qualified over a standard course, recognized by the National Rifle Association (under the auspices of the War Department), and who have earned the extra pay awards granted by the City Council last year. At the same time every officer is required to engage in frequent shooting qualification tests and whenever a division commander finds an individual who cannot make a score of 70% or better it is considered that the latter has fallen below the degree of efficiency required and he is placed under special instruction, on his own time, until he is able to meet the necessary standard.

A police department with the reputation for excellent shooting ability has attained one of the pre-requisites in preventing criminals from entering its territories. At the same time the average citizen feels a greatly increased confidence in a police force whose members can and will shoot quickly and accurately in performance of the duties with which

they have been intrusted.

During the past year our Department won all of the gun fights in which its men were engaged and only in one case did an officer lose his life. Reports indicate that this brave young man was actuated by humanitarian motives when he withheld his fire for some time and, when, in defense of his own life, it became necessary for him to shoot, faulty ammunition made his weapon useless. We have overcome the likelihood of any such condition occurring again, and we now require a more rigid inspection of all equipment used by officers in the performance of duty, and at the same time we prevent them from risking their lives by carrying old or reloaded ammunition.

Our crime charts show a general improvement in comparison to the increase in population, and those familiar with newspaper accounts of the major crime activities here during the past year will readily recognize the fact that our Department has brought to justice nearly all of those who have at empted to commit their depredations within the municipality. In our Vice Division we are obtaining an average of approximately 90% convictions on all arrests made and this condition is due to the skill and patience of the officers selected for such work. It is also well to bear in mind that a very large number of our citizens hesitate to co-operate with officers engaged in the enforcement of the so-called

"morals laws."

The most pleasing indication of the efficiency of the Los Angeles Police Department as a whole is furnished in the accurately compiled crime charts submitted herewith. I wish at this time particularly to call to your attention the fact that robberies for the fiscal year ending June 30th. 1926, show a decrease of 20% over the preceding year. Robbers constitute themselves not only a menace to public property but in nearly all cases are a menace to the lives of our citizens; and when despite our rapid growth in population we are able to show a 20% reduction in such crimes, there is ample evidence that the safety of our citizens has been greatly increased.

It gives me pleasure to transmit this highly instructive report of the activities of our Department for the past year, and at this time I wish to thank the members of the Board of Police Commissioners for their unselfish efforts in

behalf of the Police Department and the general public.

Respectfully yours.

James E. Davis

Executive Office

Los Angeles Police Bepartment

Board of Holice Commissioners

TO THE MAYOR,

The Honorable George E. Cryer,
City of Los Angeles,
Los Angeles, California.

Honorable Sir:

In forwarding the following report of the Chief of Police for the fiscal year 1925-1926, which speaks for itself, the Board of Police Commissioners wish to call to your attention the activities of this Commission for the fiscal year 1925-26.

Under the provisions of the previous Charter the Police Commission consisted of three (3) members, including the Mayor. The present Charter provides for a Police Commission consisting of five (5) members whose terms are for five (5) years each and, as you are aware, the Mayor is not included as a member. In accordance with Charter provision it became necessary, at the organization meeting of this Commission held July 6, 1925, for the two members of the former Police Commission to so classify themselves that one's term of office would expire on June 30, 1926, and the others expire June 30, 1927. This was accomplished by lot and as a result thereof the term of Commissioner I. W. Birnbaum expired June 30, 1926, while that of Thomas Foss expires June 30, 1927.

The volume of work incidental to the filing of miscellaneous applications for license permits, etc., has greatly increased the work of this Commission—it being necessary that a closer investigation of the parties applying for said permits and conditions as to locations desired, etc., be made.

Under the provisions of Art. III, Section 36 of the Charter, the Honorable City Council did, by ordinance, designate this Commission to act in the capacity of Traffic Commission. It is the duty of this Commission acting under this Ordinance, to recommend such Rules and Regulations for enactment into ordinance by the Council as it deems expedient in handling traffic matters. Pursuant thereto, this Commission early in the year called a conference of many representative organizations interested in traffic matters. This conference was well attended and much valuable information obtained.

The Board of Police Commissioners desire to assure you that they are aware of the added responsibility conferred upon them by the said Charter, especially under Section 78, Article VI., which reads as follows:

"The board of each department shall have power (subject to the provisions of this charter and to such ordinances of the city as are not in conflict with the grants of power made to each such department of the city government elsewhere in this charter) to supervise, control, regulate and manage the department and to make and enforce all necessary and desirable rules and regulations therefore and for the exercise of the powers conferred upon the department by this charter. It shall have such additional powers and perform such other duties as may be granted or imposed elsewhere in this charter, or by ordinance not in conflict with the provisions of this charter. No grant of power by this charter to any department of the city government shall be construed to restrict the power of the Council to enact ordinances under the police power of the city, except as otherwise specifically provided in this charter."

and, pursuant thereto, are determined to increase the effectiveness of the Police Department in all of its branches, thereby giving to the citiz∈ns of Los Angeles the added efficiency in police protection to which they are so justly entitled.

This Commission desires to express to you sincere appreciation of your co-operation during the past year in their efforts in behalf of public welfare.

The following page is devoted to reports showing various license permits, etc.. handled by this Commission, and traffic requests coming to them for proper attention.

Respectfully yours,

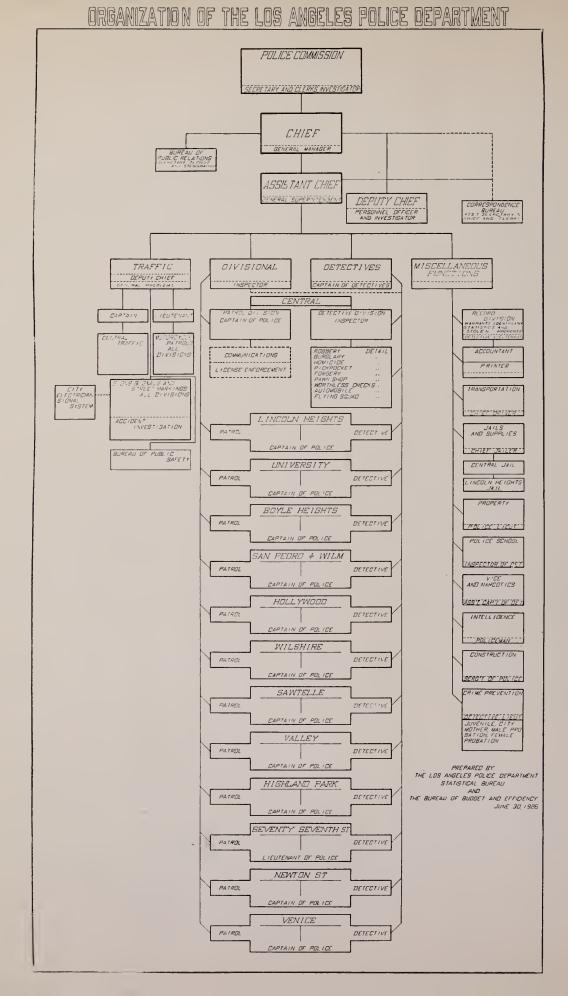

BOARD OF POLICE COMMISSIONERS.

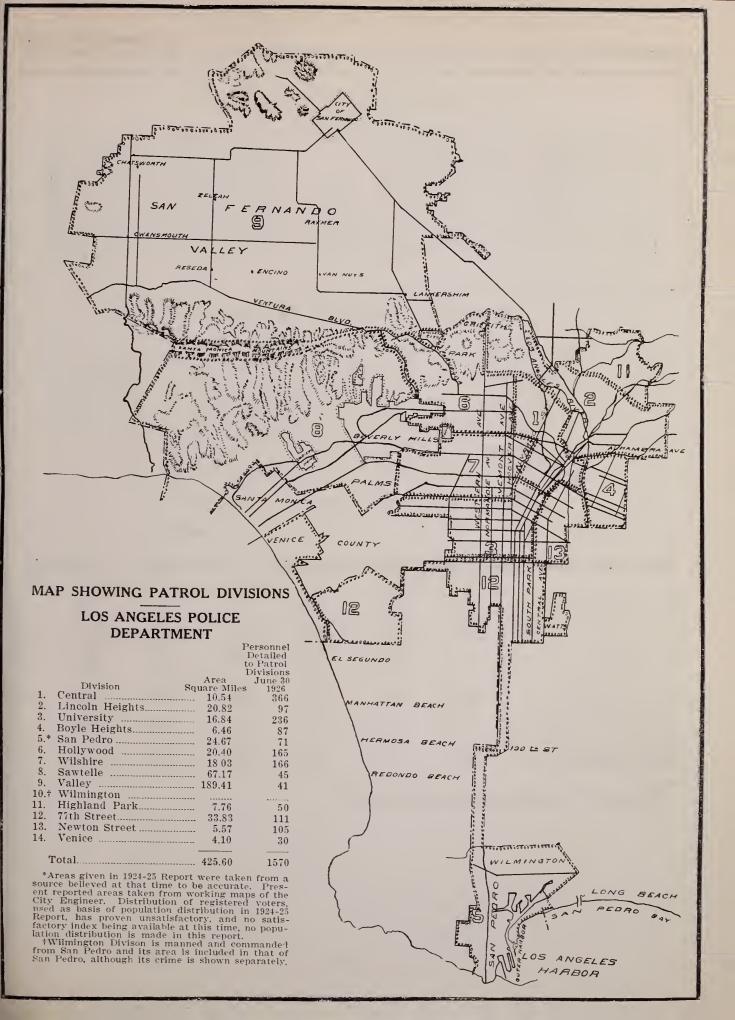

I. W. BIRNBAUM, President;
THOMAS FOSS.
RODNEY WEBSTER,
HARRY E. INSLEY,
WILLARD G. THORPE.

BUREAU OF PUBLIC SAFETY

This bureau, operating as a department of the Traffic Division, was placed in operation during the year by Deputy-Chief Cleveland Heath, for the purpose of instructing the people in the traffic laws and the cause of traffic accidents and how to prevent them. 37,762 people attended meetings, where lectures on safety in traffic, citizenship, the functioning of the Police Department, law enforcement, etc., were given; 186 lectures were given to employees of corporations, taxicab drivers, professional chauffeurs, children attending the High, Junior High and Grammar Schools. Associations, Lodges, Theatres and Churches. 42 "Safety First" radio lectures were given. A safety film of three reels was shown at these lectures 48 times; 22 lectures were given in other cities; 157 articles on traffic safety were written by this department and printed in various publications.

STUDY OF ADULTS ARRESTED

July 1, 1925-June 30, 1926

As shown by reports filed with Records Division

Totals shown for arrests on the respective charges will not tally with the report of the Central Booking Office because one man arrested on several charges is booked on each charge, while the tabulations show the individual only under the more serious charge. Therefore these figures concern arrests of persons and not arrests on charges.

CRIMES AGAINST THE PERSON

		Fe-	
	Male	male	Total

WORK OF VICE DIVISION

July 1, 1925-June 30, 1926

Arrests	11,419
Convictions	10.682
Dismissed	514
Pending	223
Cash Fines and Bail Forfeitures \$	541.995

RECORDS

The RECORDS DIVISION comprises the Identification Bureau; the Crime Report Bureau (handling all crime reports and the records of lost and stolen property); the Warrant Bureau, serving between the Court and the individual officer who serves warrants and subpoenas; the License Bureau, enforcing payment of the city license ordinance; the Printing Bureau, which issues the Daily Bulletin and supplies all forms used in the department; and the Statistical Bureau, charged with the statistical analysis of crimes and criminals in the City and with supplying material for use in the proper distribution of personnel into the Patrol and Functional Divisions.

The Identification Bureau shows an addition to Fingerprint Files of 56,094 prints, of which 21,433 were identified as corresponding to prints already received. The present total of prints filed is 116,538.

The Latent Fingerprint Expert identified 20 otherwise unidentified dead and connected 45 men with 90 burglaries and robberies; in each instance the criminal later pleaded guilty or was convicted.

The first year of laboratory operation (part time, due to shortage of personnel in the Division) showed analysis of 31 samples, divided as follows: For poison, 16; blood, as to whether human or animal, 7; fluids suspected of being explosive, 7; fluid suspected of being highly inflammable, arson involved, 1.

Handwriting testimony has been presented in the Municipal Courts as a part of the prosecution of 40 cases, in addition to a large amount of study of handwriting samples which have not reached the courts owing to absence of supporting evidence.

The progress of the Statistical Bureau is represented by the present report.

FUNCTIONAL STUDY

Believing that the average citizen and taxpayer would be interested in the way the Police Budget Dollar is spent, with regard to the cost of the multitude of separate functions and duties performed by the Police Department, and would appreciate an attempt to determine whether or not certain mechanical and engineering substitutes for men are actually more economical, the study of the Police Department from a cost basis is being attempted by the Bureau of Budget and Efficiency of the City of Los Angeles, collaborating with the Statistical Bureau of the Police Department.

These data are presented more to show the direction that the study is taking than to offer a finished analysis of the way in which that part of the Police Budget devoted to salaries is distributed over the various duties and functions performed.

The period which this study represents is a calendar week, during which each member of the Department kept fairly accurate account of the duties performed by himself and the time devoted to each activity. The individual cards were transferred to tabulating machine cards by the Statistical Bureau and analyzed on the basis of the salary schedule in effect at that time (January, 1926), the week being considered as one-fifty-second part of a twelve month year in the computation of salary distribution.

The column entitled "men" bears no relation to the number of men detailed to the Division but represents the number of men who, during the week in question, spent a part or all of their time on the respective duties. A total would have no meaning and is omitted. "Hours" represents the total number of hours spent in the divisions on the respective duties. "Cost" shows salary cost only, it being hoped at a later date to revise the study and to include all of the other expense elements which should be properly included.

Naturally, such a one-week sample will represent only a snapshot of a moving and dynamic organization as it was at the instant of observation.

Errors there are, due to the newness of this type of study to the members of the department, whoes statements were necessarily taken as presented. The use of unskilled help presented another difficulty and source of errors, which the skilled help, busy with other routine matters, were unable to find time to eradicate. In spite of these disagreeable features, we consider the data worthy of publication as exemplary of an effort toward a scientific approach to police problems from the financial angle supplementing the already advanced scientific study of police problems from the strictly "police" angle.
